Bill Smith

Welcoming Feedback and Correction

Proverbs 9:1-18

1. What is wisdom?

2. Why would you want it?

3. How do you get it?

Discussion Questions:

1. Look back over your life. Would you say that you're quicker or slower to hear people who have tried to correct you—or are you about the same? (i.e. Are you becoming wiser as you grow older?)
2. How is Christ's resurrection necessary for you to hear the call of Proverbs 9 to be wise in hearing people when they try to correct and reprove you?
3. Can you think of a time when the gospel (specifically, Christ's death and resurrection) helped you hear something from someone else that was hard, but good for you?
4. What areas of your life has the Lord been putting his finger on, by sending other people to you, that he wants you to pay more attention to?
