Bill Smith

Finding True Stability

Isaiah 22:1-25

1. How unstable our world really is

2. Where we tend to look for stability

3. Where real stability is found

4. How we can enter into it

Discussion Questions:

1. Are there areas of your life where it just doesn't occur to you to turn to the Lord for help (because you've instinctively or automatically turned to something else instead)?
    a. What are some of those areas?
    b. What do you find easier to trust (instead of the Lord)?
2. Which do you need more: to repent of trusting in unstable things or to have greater faith to believe that God holds onto you more than you ever could hold onto him?
3. Take a moment to think: what does Jesus' resurrection have to do with this area of my life? (i.e. What does his resurrection promise you for that area? What fears does it set you free from? What does it suggest you could do now if you took the resurrection more seriously?)
