God Pursues His People

Acts 7:1-16

1. God is not limited by your background experiences

2. God is not limited by your past responses to Him

3. God is not limited by your ignorance of Him

Discussion Questions:

1. First, think about yourself:

    a. Are there things in your background that make you feel like it's harder for God to get to you than to get to someone else?

    b. Are there ways you've responded to Him in the past that you're afraid are now going to hinder His work in your life...or even prevent Him from being able to work?

2. Next, think about the above two questions (1a and 1b), but replace "you" and "your" with "New Life Church" (i.e., think about what those two questions look like for us as a church).

3. Now, ask those same two questions but focus on "our country."

4. How does God's work in the early generations of His people give you greater confidence in His desire—and ability—to work in you, New Life, and the US?
    a. What do you need Christ to reveal about Himself that would give you even greater hope?
    b. Who do you know who needs a(nother) chance to see the same Jesus who you need to see? Please take some time to pray that God would send people to them and that he'd also give you opportunities to share with them as well.
